

More Than Just Patient Support Services

The Taiho Oncology HCP Portal is an interactive practice and patient management tool specifically designed for oncologists and their office staff. The Taiho Oncology HCP Portal allows you to:

Manage and track all prescribers in the practice

An individual profile can be set up for each prescriber, making it easier to manage multiple patients across different prescribers

Quickly view individual patient cases

Prescribers and office staff can easily access patients' profiles and review their specific needs and requests. Prior authorization status and other important requests can also be viewed at a moment's notice

Upload patient documents

Supporting documentation such as insurance information and case notes can quickly be uploaded

Get real-time progress updates

Prescribers and office staff have the ability to track the status of their patients' cases in real time

Speak with a Taiho Oncology Case Manager

Prescribers and office staff who have questions about reimbursement access for a specific patient can speak directly with a Taiho Oncology Patient Support Program Case Manager Monday through Friday from 8:00 AM to 8:00 PM ET

Download helpful practice and patient resources

Important information about Taiho Oncology products and programs can be quickly downloaded, emailed, and printed through the Taiho Oncology HCP Portal
